CHAIRMAN'S SPEECH

Welcome everyone! Thank you for joining us at the Ski Association of Hong Kong, China's 2024 Annual Dinner. This annual dinner also raises funds for the Hong Kong Ski and Snowboard Team to support its pursuit of participating in all ski events, most notably the upcoming winter Olympic Games in Cortina, Italy, in 2026.

This 2023-24 season had some notable achievements for SAHK which started with an MOU signing with the City of Asahikawa and JTB tourism to bolster support between HK and Japan's Ski community. The great season continued with our attendance of the Gangwon Winter Youth Olympic Games, the Alpine Junior World Ski Championships, and the 14th China National Winter Games, all major Alpine Ski events in the world stage.

The most exciting achievement of the season was SAHK's organization of the 32nd Asian Alpine Championships (Junior) 2024, held in Beidahu Ski Resort in Jilin China. It was an incredibly successful event, with attendance of over 100 people from 14 Asian countries/regions. With the success of this event, we are looking towards the future, as one of the leaders in bringing global attention to winter sports in Asia and specifically in China. With the continued support of the International Ski and Snowboard Federation, the Asian Ski Federation and the Winter Sports Administration of China, we hope to continue this tradition of bringing people together from all over the world to enjoy winter sports and celebrate the incredible athleticism that our athletes have to offer.

In order to achieve our goal of attending the Winter Olympic Games and other major alpine events, SAHK continues to organise training camps during the major holidays including Christmas, Easter and Summer. As well as sending teams to races all over the world including Japan, South Korea, China, Bosnia & Herzegovina, France, Austria and South America.

In the upcoming season, SAHK will endeavour to continue providing opportunities for our Hong Kong athletes to gain more skills & experience in the international stage of alpine skiing in preparation for the approaching Winter Olympic Games in Cortina 2026.

Finally, we would like to take this opportunity to thank all the sponsors for their continuous support, all athletes for their hard work in training and competitions, and of course, all parents for their contributions and patience in supporting the young athletes of SAHK in their pursuit of athletic excellence.

NORDIC SMILE 矢志研發最優質的細胞修復產品，一系列產品乃針對人體抗衰老而特別研製，當中以最皇牌科技NORDIC SMILE LLLT細胞修復量子光機，並以最高品質標準於芬蘭生產；更通過嚴格測試，務求為顧客帶來最尖端先進，以及具卓越的抗衰老科技。品牌現於全球唯一能穿透皮下8cm的光療技術，穩佔殿堂級的尊貴領導地位。

諾貝爾技術基礎 修復細胞延緩衰老

NORDIC SMILE LLLT北歐量子光，是建基於諾貝爾的科研成果。在1896年，光療之父Dr. Finsen利用紅光治療了紅斑狼瘡的病人，利用紅光療法把潰瘍的皮膚變回平滑，而NORDIC SMILE LLLT運用科學家DR. COCCO發明的量子光技術，這個技術獨特之處，是把近紅外光子相干性、方向性調到更精準，能量再放大，這種完美有序的相干性光，稱為量子光。

量子波譜相干性形成的一個個脈衝波，就是量子光能穿透人體深層組織的奧妙所在，而市面上光療產品種類繁多，其技術大多作用於表皮組織效果往往差強人意。

提高ATP 細胞能量水平

使用專利富勒烯石英鏡片的NORDIC SMILE LLLT運用量子光技術，照射出的光綫，保證了最佳組織穿透激活，並有著淨代血液功能，達到體內代謝。

量子光最主要兩大作用，刺激幹細胞和生長因子，讓細胞快速自我修復再生，提高ATP細胞能量水平，激活細胞的自愈能力。

量子光可以與人體99%的健康生物分子結合，在儀器發出的波長範圍裡，是柔和安全且沒有任何副作用的。任何時候都可以進行療程，不論任何年齡都適用，治療關節軟骨受損、防止進一步發炎，改善機能、提升關節活動能力，強化肌肉及預防復發，美白、抗皺、去印、刺激骨膠原及毛髮增生，消除疲勞、增強免疫力、燃燒脂肪、提升新陳代謝率，量子光能穿透穴位，融合中西技術，迅速去痛，改善卵子精子品質，提高生育能力。
